## Program Note

*Ruah*, with the 'h' pronounced like the 'ch' in Bach, is a flute concerto inspired by the Hebrew word that translates as air, wind, or breath. In Cabalistic mysticism, it also refers to the part of the soul that mediates between the body and the spirit. Both the colloquial and spiritual meanings are at work here. The images of breath and air inform the timbral stretching of the flute's sound, with the flutist using the voice and its breath flow in conjunction with played tones. The image of the wind is captured particularly in the swirling lines of the first movement, marked *Soaring* and in the third, titled *Impassioned*. The second movement, *Tender*, emerges from a dynamic stillness, with far-flung registral limits, and large internal spaces. Its three-part organization mirrors the larger-scale three-movement plan of the entire work. The final movement is a more furious spin through space and reflects a more tightly wound, assertive character than the first two movements. However, it also refers to the preceding movements. The spiritual reference is embodied in the role of the flute as it variously springs forth from and mediates between the instruments of the ensemble.

The composition of *Ruah* was made possible in part by an NEA Composer Fellowship and by a residency at the Virginia Center for the Creative Arts. It was composed for flutist Reneé Siebert and the Prism Chamber Orchestra who premiered and recorded it on the CRI label with conductor Robert Black. It can be heard on *Piping the Earth*, a collection of Shatin's orchestral music republished as a digital album by Ravello. The original scoring for 1.1.1.1./1.1.1/ strings was augmented to include percussion for the performance by the Aspen Contemporary Ensemble, conducted by Timothy Weiss, in 2019. Both versions are available, as is an adaptation for flute and piano premiere by Reneé and Cynthia Siebert at the 1994 National Flute Association meeting in Kansas City, Missouri. –JS

## Performance Notes

1. Accidentals apply to the notes in register throughout the measure
2. Brackets with numbers above indicate duration in seconds
3. Feathered beams do not denote the specific number of pitches over the duration; rather the rate at which they move

Duration: 23:00
